GONE TO GLORY

Tune.-Bound for Glory, 17. Time—Bound for Glory, II.
Loved ones have gone before,
They will never suffer more:
We shall meet them on the shore,
Up in Glory!
What a meeting that will be.
When we shall each other see,
Eferlasting jubilee, Up in Glory!

Charme Gone to Glory! Gone to Glory! They have crossed the rolling flood

They have crossed the rolling flood, More than conquerors through the Blood; Gone to Glory! Gone to Glory! They have left the battlefield, Gone to Glory!

This is especially so when the war is carried into an enemy's country. once an aggressive war has been decided upon, the words "attack" and "conquer" become the real watch words.

Can we not get all Salvationists to

Can we not get all Salvationists to unite the atlack and defence poli-cies? The ambition to "get" is so liable to die out when there is a reasonable amount in possession; and the highest kind of Soldier is the one who never loses the spirit of enterprise, and yet knows how to hold on to what has already heen

And yet there is a terrible read of and yet there is a terrale need of new inventions in the way of soul-saving. More plans must be got out to rout the devit and gather sinners to rout the devil and gather sinners in. Oh; how stereotyped; how cast iron, how set some of us are! Yes, The General is right; my farewell subject did stop short, but then it is a feature of The Salvation Army that where one stops another can step in and carry the work for-ward. That is just what The Gen-eral did when to my words, of rather Jesus Christ's words, "Hold fast that thou hast," he added, "Get some more.

She has seen him in many differenl phases—when overflowing with exuberance, when utterly "fed-up," and when suffering and dying. And the thing which has impressed her most has been his undieguised grati-tude for the slightest hely afforded him.

This was amusingly demonstrated by the war-bedraggied Scotsman, who, with come regret, remarked: "Tre nothing left to give you as a souvenir: hut will ye accept one of my trouser buttons?"

Still, we are here, and that's one thing, and I am glad to be able say that I am well saved and havto say that I am well saved and having victory right along, and that is the chief thing. All the other boys are doing fine. There is no Corps just close to the camp—one six just close to the camp—one six miles away—but we have some very nice meetings in The Salvation Army Rest Room here in camp. It makes us think of home.

"Nothing very exciting occurred on the trip. One or two scares from submarines having been reported in submarines having ocen reported in our locality, but we didn't see any, so we didn't worry much. Anyhow there were quite a number of us on board who believed in even a great-er Protector than the British Navy, and we knew that He was watching and we knew that He was watching over us, so we didn't lose any sleep at all. It is very nice in these times to be able to realize that there is One so interested in us that 'He neither elembereth nor tirens, and His protecting arms are always around us. Mrs. Richards gave a highly-interesting address, outlining the objects of the League, namely, to be of assistance to the mothers in the home, by making home worthy the home, my making flome worthy

of her own store of experience she
gave some very practical lints. Out

Naturally enough some of the men who are so lar away from home feel a bit lonesome, so we find one of the great needs is always to be bright and to keep smiling ourselves, no matter what the difficulty.

Amid one general leave a shipless crew arrived, and although we had as much as we could do, how could as much as we could do, how could see limit them away? They had been many days tossing of the waters and were every pleased to find a shelter from the storm at Home. We all put our shoulders the wheel and housed sand too and therwise cared for them until a boat came in that could take them lome to those who were auxiously awaiting their return.

This shipless crew, together with I his snipless crew, together with all our other men, soldiers and sail-ors alike, helped to make a happy party. What manifestations of unity and comradeship these stirring times are calling forth!

In seventeen of the great towns the increase had been so much as thirty per cent., while in the Metropolitan police district the jucrease in the case of boys under fourteen is placed at sixty per cent. Petty thieving is the principal offence. A MUSICAL SPECIAL

On Safurday and Sunday, Nov. 18th-19th, at Weyburn, we had with Adjutant Habkirk from Regina. There were good crowds at every meeting, and the Adjutant's singing and speaking was enjoyed. At might the had the pleasure of seeing three genors and four Juniors kneeling, at the Mercy Seat. F. 12 Comments on the Christmas "War Crv By PERISCOPE

When I wente a few thoughts lost week I was nothing but an ordinary. every-day being, going through the usual routine each day, naving my coal. gas, and light bills when due, filling up my pence envelope at the Corps each week, trying to solve the problem of the high cost of living by making each week, trying to solve the problem of the high cost of hving by making the usual Sunday roast of beef last over the Monday and sometimes even making it the base for a dish of hash on Tuesday.

To and hishold on Thursday morning I find muself famous and sports ing a new name when the notes appeared in "The War Cry." Periscone That's the mean trick played on me by the Editor when I wasn't looking. Well, Editors will have their little pleasantries-and the name man's house .

Business again. What about the Christmas "Cty" circulation? Has the war interfered with the sales? With so many Canadians across the seas, won't your sales dron? How can you expect to selling many "Cive" as other years when so many Boomers are away, and also now that the saloons are gone? These are fair questions, and the right answer to them all is that we shall this year dispose of as many as we-did last year, and perhaps more. Looks bealthy, doesn't-it?

A letter reached us to-day from a well-known "War Cry" hustler— Captain Hancock of Fredericton. It cheered our hearts. The Captain wants 500 more "Crys" in a burry. He'll get 'em! Last year Fredericton sold 900 copies. This year the total sales will be 3,000. Thus's class for you! . .

A former letter stated that he visited 250 houses and sold 185 "Crys1" I did hear of a man that sold another man a load of snow in Jenuary, and made the fellow pay the cartage! It seems to me Captain Hancock is just as successful a salesman, and has the advantage of handling a better article.

We had at Halifax II. last year a dear brother-Officer named Hurd. He actually disposed of 4,630 Christmas "Crys," and would have sold 1,000 more—if we had been able to supply them. The mantle of Adjutant Hurd has fallen on Captain Hancock. Will the Captain hear the Adjutant's record? I trow-not.

-What time any Officer needs any special pointers on "War Cry" selling, they will find Captain Hancock willing to give the benefit of his experience. Please enclose postage, and don't alt write the same week!

Other commendable increases already in are Dunnville (400), Cobourg (250), Rhodes Avenue (300), Wychwood (250), Parliament Street (200). Hespeler (100), Oshawa (150), Edmonton III. (100), Chester (100); and the end is not yet, gentle reader.

It's all in the viewpoint. Some comrades are rather inclined to look upon selling "War Crys" as merely disposing of so many papers. Others, knowing what's in "The Cry," and feeling assured that no person can read a copy without being somewhat belped and encouraged and blessed, accept the task willingly, and make it a real service for God. The Christmas "Cro" is calculated to spread the news of Salvation in all directions. Nobodil. should go out selling "War Crys" without a grayer that good may result

A fine bit, of reading in the Christmas "War Cry" is that by Harold Begbie on India: Another in Adjutant Mary Booth's Notes from the Trenches. [And what's the matter with the article by the Editor?-Offis Boy.1

The Illustrated Section of "The Cry" is very commendable. Bearing in mind the fact that it is practically impossible to procure the ingredients mind the fact that it is practically impossible to presure the ingredients that go to the correct making of process index, we have not much cause for complaint. Luk-makers themselves confess to using "dope," or "something just as good," in tiest; night, "Never mind, "seep smiling. We're not down and out yee. Mrs. "Arris, of Hethnik Green, said that her husband enjoyed very poor health, but he complained of feeling better lately! That's the way we are with our sing studied. Keep smiling! [Word bittle this bostprinter? This reads like an apotogy. Offis Boy.]

The outlook for paper, that at one time looked very discouraging, did The outdoor for paper, that at our take howen year another was not cause us a moment's worry. We got what we wanted, even though we had to pay more for it. You're getting your "Cry" for ten cents, so there's no kick coming from your direction.
